COURT PROCEEDINGS.

The case of the Ter. vs. Walker was continued yesterday afternoon. Miss Cassie Walker, the eldest daughter of the defendant, was placed on the stand, and testified that the hogs in question had been moved to this county from Dover, Okla. She told a straight-forward story, and her testimony and that of her little brother, which was substantially the same, impressed her hearers as being truthful. Several other witnesses, neighbors of the defendant, were then called upon to testify, but nothing new was brought out by their testimony, as it simply emphasized the points made by previous witnesses. At 3:30 court adjourned, for the preparation of the instructions to the jury. The jury returned a verdict of not guilty. The long continued Mose Stewart case was finally concluded last night, and the arguments of the counsel were made this morning. The jury is still out.

Extract From Letter From Mr. Edwards.

Just now we are having a great time entertaining our President and I can assure you, California is doing the job up right. He remains in this city three days, and I wish you could drop down here and see the place, one could not think of a fairland more beautiful or grand.

The city is of course crowded with people and is resplendent with flowers and electricity. At night the whole city is ablaze with light of different beautiful colors and words cannot express the wonderful sights and effects. I got a good look at the President yesterday and I was impressed with his wonderful vitality and energy. It is wonderful how he can hold up under such a strain, on the go early and late, and making speeches several times a day. He was standing in the carriage when he passed us, and he looked tired and careworn as he bowed and tipped his hat right and left, it really made me feel glad that I am not the President. I forgot to tell you about the daylight fireworks as we never saw such things before, and the most wonderful images and figures were thrown into the air with a sort of a cannon, and exploded high in the air, turtles, men on horseback, birds, and other things were floating in the air, and taken altogether it was a wonderful exhibition. Tonight the President speaks in the pavilion where all the great prize fights take place and we are going to hear him; today he has been reviewing the school children and I am sure he will have no complaint to make here about the child population decreasing, for there are thousands and thousands of them in this town.

Yours truly,
W. H. EDWARDS,
No. 8, Myrtle Ave. San Francisco Cal.
